

CHARLOTTE

18-years-old, “beach lover”

What hurts?

Charlotte is fighting Acute Promyelocytic Leukemia (APML) which is a cancer of the blood.

What is your favorite Hope for Henry program?

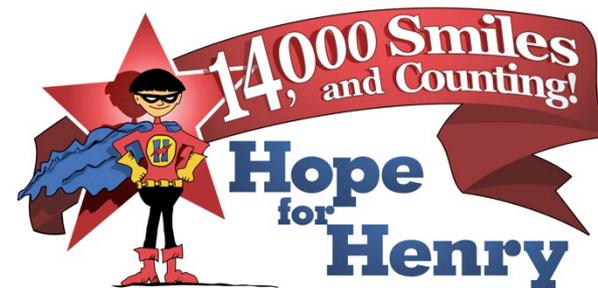

Charlotte had a hard time picking her favorite Hope for Henry program as she has been at MedStar Georgetown University Hospital for months and has benefitted from so many programs. Among her favorites is the Hope for Henry Superhero Celebration because it gave Charlotte a chance to get out of her hospital room and see many of the friends she has made in the Lombardi Cancer Center clinic in a non-medical environment. She especially loved taking pictures with her friends in the photo booth and the caricaturist who drew a picture of her as the world's greatest One Direction Fan. Charlotte also really enjoys the Hope for Henry Super Duper Fun Cart that delivers gifts and delicious treats on the inpatient unit. In particular she really enjoyed the Super Bowl Fun Cart and March Madness Fun Cart which included a visit with the one-of-a-kind Harlem Globetrotters!

What is your favorite superhero?

Superman!

What makes you happy?

One of the things that Charlotte loves the most is spending time with her family and her friends. She enjoys taking vacations and really loves going to the beach. Charlotte is also a huge fan of the band “One Direction” and saved up \$10,000 Hope for Henry Bucks through Hope for Henry's innovative Super Path to Super Duper Better Patient Incentive Program to earn four tickets to One Direction's 2015 summer concert in Baltimore, Maryland.

Improving outcomes for Washington, DC's sickest children, Hope for Henry Foundation brings smiles, laughter and joy to kids with cancer and other serious illnesses at Children's National Medical Center and MedStar Georgetown University Hospital. Its year-round programming promotes comfort, care and recovery for these kids and their families.

Founded in 2003 and led by social innovator, patient advocate and author, Laurie Strongin, Hope for Henry has served more than 13,000 children in the Washington, DC metropolitan area and around the country.
