

# HOPE FOR HENRY TOP FIVE REPORT

December 2023

## 2023: Our Best Year Yet

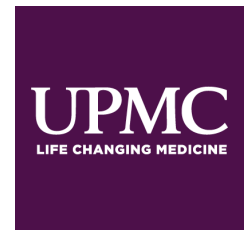

Thank you for making 2023 Hope for Henry's most successful year yet. We served more kids in 2023 than we did in our first 12 years combined! Highlights include: celebrating our 20th anniversary, signing on our 40th hospital partner, and serving our 120,000th patient. We look forward to sharing our successes in 2024 as we progress towards our goal of 100 hospitals by 2026!

## Hope for Henry in the News

Last month, Hope for Henry's CEO Laurie Strongin was featured on [John Hopkins' Berman Institution of Bioethics Podcast](#) "Playing God: Creating One Life to Save Another," and our vaccination toolkit was featured in an article in the [Washington Jewish Week](#)! Click the links to learn more about our industry-leading work.

## New Hospital Partner

We are so excited to welcome UPMC Children's Hospital of Pittsburgh to our amazing group of hospital partners! We had a wonderful time hosting a Super Rewards training, enjoying local tacos during a Lunch & Learn, and meeting the talented child life team.

## 20th Anniversary Celebrations!

## December Toy Drive

Join us in spreading cheer to hospitalized children this holiday season - after all, the celebrating shouldn't stop at the hospital door. Please check out our [Amazon Wishlist](#) and be a hero to a hospitalized child today!
