

HOPE FOR HENRY TOP FIVE REPORT

February 2024

2024: By the Numbers

We've lately been bragging about reaching 20 years, 40 hospitals, and 120,000 patients served - and for good reason! However, in the last few weeks these numbers have become outdated. We just signed with our 42nd hospital (more information to follow), and served our 125,000th child. Shout it from the rooftops!

Hospital Map

The Toy Industry is Improving our Game!

We'd like to extend our thanks to The Toy Foundation, Lids Foundation, Paramount, and Mattel for supporting us with tens of thousands of toys during the holiday season! These partnerships have been essential to our operations and their donations free us up to use our resources on expansion and innovation.

New Hospital Partner

We are excited to welcome NewYork-Presbyterian Brooklyn Methodist Hospital to our ever-growing roster of partners! They are our fifth partner based in New York City. We're getting closer to our goal of 100 hospitals by 2026.

Podcast Feature!

Hope for Henry's CEO Laurie Strongin was featured on [John Hopkins' Berman Institution of Bioethics Podcast](#) "Playing God: Creating One Life to Save Another." Listen and learn today.
